Cleric and Woman Defend Home.

Baptist Clergyman, Deposed for Joining Elks, Victim of Night Raid.

Visiting Friend Without Impropriety His Wife Says, When Assaulted.

White-Robed Band That Threw Eggs at House to Be Prosecuted.

[BY DIRECT WIRE TO THE TIMES.]

POUGHKEEPSIE (N. Y.) Aug. 12.—[Exclusive Dispatch.] The Rev. Mervin F. Jacobs, who was deposed from the pulpit of the Baptist church in Pine Plains, after he had joined the Elks, stood guard with Mrs. Frank Husted in the home of the latter at Pine Plains last Saturday night, each with a loaded revolver, while a band of Whitecaps pelted the house with eggs and smeared the piazza with tar and feathers. The affair was kept quiet until yesterday.

The Whitecaps used the mail today to pay their further respects to Rev. Mr. Jacobs. Mr. Jacobs received the following letter this afternoon, postmarked Pine Plains, August 11:

"At a special meeting held in the village of Pine Plains, the Tar and Feathers Club, this, the 11th day of August, 1908, passed the following resolutions:

"We, as a club, pledge ourselves that if a man—if he can be called a man—by the name of M. F. Jacobs, visits our village again, we pledge ourselves to treat the skunk to a coat of tar and feathers."

"We also wish to inform you that the aforesaid club is composed of men belonging to the Order of Elks, Masons and Odd Fellows."

"Now, Mr. Jacobs, if you have any doubt about our fulfilling this pledge, come up."

[Signed] "MR. TAR."

WHITECAPS IDENTIFIED.

Mr. Jacobs received the letter at his home, No. 112 Winton avenue. Mrs. Husted was at his house at the time, having accepted an invitation for dinner from Mrs. Jacobs, with whom she is very friendly. Mrs. Husted's visit to Poughkeepsie was for the purpose of securing satisfaction against the Whitecaps.

Mrs. Husted retained Charles Morchauer, counsel for Harry K. Thaw, and the lawyer announced that the members of the Whitecap band will be prosecuted to the full extent of the law. Their names will be presented to the next grand jury for indictment. He refuses to make public any names, but said that he already has the names of six or seven and expects to have the names of all in a day or two.

One of the members of the Tar and Feathers Club is said to have become frightened into giving away the secrets of the organization.

It was hinted today that some women were in the raiding party, all of whom wore masks and white sheets around themselves.

NO IMPROPRIETY.

"It was a most outrageous proceeding," said Mrs. Husted today.

"Mr. Morchauer will not only ask for the indictment of the offenders, but I have instructed him to begin civil proceedings for slander against every man or woman he can find that has leaked my name with that of Rev. Mr. Jacobs."

"The idea of there being any impropriety in my actions is preposterous. My aged mother, little daughter and maid are always with me. Mr. Jacobs was taken ill while in the village on business, and came to me as his wife's most intimate friend."

"My husband is in Mexico attending to his mining properties, and I received a letter from him Monday. He will be furious when he learns of the outrage perpetrated on me in his absence."

Mrs. Jacobs, who has championed her husband in all his troubles at Pine Plains, said:

"My husband's enemies, in their efforts to wreck his life, have done a great injury to an innocent woman. Mrs. Husted is my friend and I shall stand by her to the end."

COL. COEY BURNED OUT.

Fate Deals Another Blow to President of Federation of American Aero Clubs.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Aug. 12.—[Exclusive Dispatch.] Fate dealt another blow at Col. Charles Andrew Coey, president of the Federation of American Aero Clubs, today.

Fire wiped out his garage and early this morning. Then Asst. Atty.-Gen. Hogan took a hand in investigating circumstances that caused him to suspect criminality in its origin.

The fire started with an explosion, and spread so rapidly that the building was almost entirely destroyed before the arrival of the firemen. The total loss is estimated at nearly \$500,000.

Fate has been dealing blows to Col. Coey ever since the sensational episode of last year, when Laura Mathews rode her saddle horse into the Rockies of Colorado and stone at dawn sent a bullet into his brain. She had been considered Coey's gang.

WIFE OF FAMOUS ACTOR CHARGED WITH ATTEMPTING TO DEFRAUD ATLANTIC CITY HOTEL.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Aug. 12.—Louise Allen Collier, wife of William Collier, the actor, was arrested at the Pennsylvania terminal in Jersey City late today as she was alighting from an Atlantic City train, accompanied by a maid and two small dogs.

The charge against Mrs. Collier is that of attempting to defraud the Grand Atlantic Hotel in Atlantic City out of \$1250. After vainly attempting to have jewels worth \$5000 accepted in court, she was taken to the city jail.

Security for her appearance in court tomorrow, Mrs. Collier succeeded in finding a bondman who furnished \$1000.

MRS. WM. COLLIER ARRESTED.

Ordinance Experts Witness Test of New Invention, Which Will Penetrate Battleship's Side Without Detonating, and Later by Time Fuse Blow up the Vessel.

[ASSOCIATED PRESS NIGHT REPORT.]

BOSTON, Aug. 12.—Ordinance experts of the army and navy today expressed great satisfaction at the performance of the new Davis torpedo gun, invented by Commander Cleveland Davis, U.S.N. Tests were made at Fort Strong, Boston harbor, yesterday, three of the projectiles being fired. In every test the target was overturned. Several more tests were made today. One torpedo was fired at a target off Sheep Island and it accomplished the object of the invention.

MUTINEERS MURDER OFFICERS.

Thousands Chinese Soldiers Become Lawless and Kill, Loot and Join Rebels.

[ASSOCIATED PRESS NIGHT REPORT.]

HONGKONG, Aug. 12.—One thousand Chinese soldiers stationed at Kong Hau, near Wu Chow, mutinied yesterday because a comrade had been arrested for gambling.

The mutineers murdered their commander, his clerk and secretary, and then attacked a camp of soldiers at On Yang. The loyal soldiers fled to the roofs of the village, and the mutineers pillaged the village, securing \$150,000 in money. They then joined the rebels in the Tai King Mountains. Troops have been dispatched to arrest the mutineers.

KINGDON GOULD IN MEXICO.

Heir to Millions Working as Common Miner in the Guanajuato District.

[BY DIRECT WIRE TO THE TIMES.]

CITY OF MEXICO, Aug. 12.—[Exclusive Dispatch.] Kingdon Gould, son of George J. Gould, and heir to millions, will work in the mines of Guanajuato for the next month as a common miner, gathering the practical rudiments of mining and learning to set his blast so as to get the most out of a charge of explosives.

Gould's work will be done under the instructions and supervision of Prof. Kemp, instructor of Geology of Columbia University, where young Gould has been studying mining engineering for the last two years. He worked his first shift today.

SIX MEN KILLED IN GUNBOAT EXPLOSION.

Third Fatal Accident Occurs on French Training Ship Courronnet, Making Total of Twelve Killed in Sixteen Months With Thirty Injured.

[ASSOCIATED PRESS NIGHT REPORT.]

TOULON (France) Aug. 12.—Six persons were killed and eighteen injured in a gun explosion aboard the gunnery school ship Courronnet today off Les Salines d'Hyeres. The accident happened while a number of recruits were receiving instructions in handling a 164-millimeter gun, the breech of which blew out. Three of the wounded are in a desperate condition.

This is the third fatal accident to happen on board the Courronnet within the past sixteen months, all of which were due to the blowing out of breechlocks. In the first, April 19, 1907, three men were killed and seven injured, and August 2, 1907, three men of the crew of a four-inch gun were killed and five wounded. All the accidents happened off Les Salines, where is situated the French artillery school.

The Courronnet is an old vessel, having been laid down in 1861, but new boilers were installed in 1898. Her armament consists of thirty-four guns of various sizes, and her complement is 622 men.

According to gunnery experts, the accident was due to the decomposition of "B" powder, to which the disaster to the battleship Lens, in 1907, was attributed, and in which more than 100 lives were lost. The men in the turret at the time of the accident declared, however, that the guns became overheated, owing to the rapidity of the fire.

The shell had hardly been pushed home when it exploded with tremendous force. Sheets of flame darted backward from the gun and those standing near by were hurled to the deck. Several of the men were terribly mutilated. Two were permanently blinded, and the limbs of others had to be amputated immediately when they arrived at the hospital.

All the occupants of the turret were injured.

UNNATURAL.

MOTHER CANNOT ENDURE CHILD.

WEALTHY NEW YORK LEADER SENT BARE AWAY.

Mrs. Egbert Strong, Supposed to Be Childless—Has Daughter Twenty Years Old, Whom She Has Never Willingly Seen Since Three Days of Age.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Aug. 12.—[Exclusive Dispatch.] Mrs. Egbert Strong is reputed the wealthiest woman among the permanent residents of Babylon. Her home is a stately white mansion, shaded by great trees and surrounded by well-kept grounds. She is famed for her diamonds, her gowns and her exclusiveness.

Mrs. Strong, her husband, has two steam yachts and a big gray automobile in which he rides daily with his wife. Apparently, her one shadow was their lack of children. Through all the years Mrs. Strong has posed as a childless wife. The amazing fact is that Mrs. Strong is a mother and has been for twenty years. Her child is a daughter, who has been virtually homeless since her birth.

Mrs. Strong ordered the babe to be taken from her home when it was three days old, and has never willingly seen her daughter since. Only twice in recent years has the mother met her daughter, and each time she was excited to rage against the husband who brought them together, and rejected her daughter again. There is no cause known for the strange actions of Mrs. Strong, who otherwise acts entirely rationally.

RUSSIA FAVORS JAPS.

ST. PETERSBURG, Aug. 12.—The Ministry of Railroads has put into effect a regulation in favor of Japanese emigrating to North or South America over the Russian lines.

EX-SENATOR MILLS SICK.

BALTIMORE, Aug. 12.—Former Senator Roger Mills of Texas, who came to Baltimore to undergo a surgical operation, was reported to be resting comfortably this morning. Mr. Mills was operated upon this afternoon. The operation was said to be successful. It was stated that while the ex-senator is a very sick man, there is every hope of his recovery during his advanced age.

ALL GOES WELL
ON FIRST DAY.Eighteen Have Perfect
Scores on Tourist Run.Twenty-six Machines Start on
Thousand-Mile Trip.One Man Injured by Blow
out of Tire Casing.

(BY DIRECT WIRE TO THE TIMES.)

BAKERSFIELD (Cal.) Aug. 12.—

[Exclusive Dispatch.] Of the twenty-

six cars which started this morning

from Los Angeles on the first an-

nual tour of the Tourists from

Los Angeles to San Francisco and re-

turn, eighteen reached here tonight

with perfect scores. The run up the

valley was a severe test on machines

and drivers as the roads are in

wretched condition and the time sched-

ule was not easy for inexperienced

even, who needed every minute to reach

the first control.

Few accidents marred the first day's

running. While pumping the rear tire

of car No. 9 near Neenack today, Asa

N. Bushnell of the outer casing, when

the tire blew out with a loud report.

The rim was thrown with great

force against his leg and he sustained

a five-inch scalp wound. His in-

jury was dressed by Dr. G. W. Tape,

and he will continue on to San Fran-

cisco.

Dewitt Mitchell, in a roadster, failed

to read a warning sign near Neenack

today, and as a result dropped into

a dangerous ditch while going forty

miles an hour. Both of his rear tires

blew out as a consequence and he was

delayed nearly two hours. As a result

of the accident he failed to reach the

Bakersfield control on time. Bushnell,

the man who was injured, was riding

with Mitchell.

Assistant Manager Carroll of the

Gorman Rubber Company of Los Ange-

les, driving a three-rear car, nar-

rowly escaped severe injuries when

his car was ditched near Glendale,

while avoiding a team on the road.

Carroll turned quickly and his wheels

slid, throwing the machine into

the ditch and wrecking it. He was

taken back to Los Angeles, in a car

sent out to aid him.

The following cars arrived in Bakers-

field on time and have perfect scores.

Pilot Car C. W. Sublandt, Proctor, car,

G. W. Lull, No. 3, Charles Harris,

Sacramento, No. 2, V. S. Beardsley, No.

J. A. J. Hall, No. 1, A. Whitney,

No. 4, J. S. Conwell, No. 1, J. R.

Gloech, Corona, No. 1, J. F. Hubbard,

No. 2, W. M. Congdon, Santa Ana,

No. 2, C. A. Dundas, Riverside, No.

22, Dr. C. F. Pepper, Anaheim, No. 2,

P. C. Gernert, No. 2, W. J. Burt, No.

P. H. Dyer, No. 2, M. S. Morrow,

No. 10, R. M. Bowser, San Diego, No.

2, Frank Booth, La Jolla.

The start was made from Teath and

Main streets, Los Angeles, this morn-

ing. The pilot car got away just after

8 o'clock, and the first of the competi-

tion cars followed about a half hour

later. The others followed at three

minute intervals, until all had been

checked out.

Each driver was given his card, a

badge and a watch-bottle. The radiator

caps of the cars were fitted with brass

tubes to hold the standards of little

flags, which proclaimed to every passer

by the nature of the run, and on some

of the cars that came from outside of

Los Angeles, the name of the home

town was displayed on the side of the

bonnet. Oil and carbide was passed

along the line by enterprising supply

firms.

Including the two tire cars and the

repair car, twenty-six cars were

checked out. There were carried in

the run eighty-one passengers.

When the cars left Teath and Main

streets this morning the fog which had

hung low over the city was at the

summit of Newhall grade was reached.

This proved to be a trying grind for

some but the corps of drivers which

the Auto Vehicle Company had on

hand near the middle of the stiff climb

were not needed. All of the starters

reached the summit and continued on

the valley to San Francisco.

Before the Tourist cars were two

hours out from Los Angeles it was

seen that the start of the long

journey was to be trying. The roads

and the heat were a combination hard

to battle with. That so many reached

Bakersfield with perfect scores seems

to insure the success of the big un-

dertaking. Manager J. S. Conwell is

pleased with the showing on his first

day's run.

Under the trees at Gorman's station

a large company of enthusiastic Tour-

ist owners gathered for lunch at the

control. The full hour allowance was

greatly enjoyed as the high altitude af-

forded a delightful breeze. The run

was resumed after lunch toward Bak-

ersfield in the valley. The heat was

intense for the last thirty miles, but

many suffered from the burning rays

of the sun which beat down blistering

on the white road plaques.

There was an ovation when the pilot

car reached Bakersfield at 4 o'clock

this afternoon. Crowds lined the

streets and cheered the men who had

made the route. Down the main

street through a lane of admiring and

enthusiastic spectators the cars rolled

toward the checking point at the

Hotel Southern, and citizens of

Bakersfield gathered to welcome the

Tourists who have finished the first

day of their 1000-mile journey. A fire-

works display concluded the reception.

Bakersfield's welcome to the tourists

from Los Angeles was all that could

be desired. The motorists here declare

that they wish to secure closer and

more friendly relations with the auto

fraternity of Los Angeles.

For the benefit of those who have

difficulty in picking out the road, hand

signs were placed at crossings on the

difficult places. What added greatly

to the success of the tour thus far

is a suggestion of danger signals, lit-

tered flags, which are placed before

every deep ditch, chuck holes or dan-

gerous turns to warn those who are

following.

Mrs. J. W. Burt is driving her car

all the way. She is the only lady driver

on the run who will handle the wheel

turning every foot of the long journey.

Mrs. Burt made a perfect score on the

recent San Diego endurance run, and

expects to finish this tour of the Tour-

ists with a perfect mark.

Charles Mahoney, manager of the

Hoffman House, City News, who was

arrested for receiving \$50 to bet on

a horse for a friend, was dis-

charged from custody yesterday. The

Court of Special Sessions acquitted

him of the charge of bookmaking on

Justice Gaylor's recent decision that

an individual bet is not a crime. The

case was conducted personally by Dis-

t. Atty. Jerome, who told the Justice

that he had snatched it out for a test.

BALL REINSTATED.

Stanford Baseball Star Eligible to Play
This Year—P.A.A. to Regulate
Basketball.

Bert Ball, the former Harvard School athlete, who was suspended last year from participation in Stanford intercollegiate athletics by the university athletic board upon the recommendation of the local commission of the P.A.A., was reinstated by a unanimous vote of the members of the local branch of the P.A.A. at a special meeting held last night at the Hotel Hayward. Ball was primarily suspended for "unprofessional conduct" and was granted official recognition and reinstatement largely for his good conduct at Stanford the last year.

Ball will leave for Palo Alto Saturday, but will take full credentials from the local commission, and will be received with open arms by his fellow students very likely, for Bert is one of the best all-around baseball players now registered at Stanford. He recorded the highest batting average on the varsity squad last season, and played against many of the smaller college and minor league teams in the pre-intercollegiate contests. Bert will enter the lists for the varsity nine and will be on hand for the fall practice.

The local commission will take immediate steps to aggregate professional and amateur athletes at Venice, George Freeth, the champion Hawaiian swimmer and surf-board rider, being the particular target for the investigating committee. Freeth has been playing regularly with the Venice water polo team, several of his team-mates being recognized athletes in good amateur standing, and who

A fairly strong westerly breeze and comparatively smooth water, together with clear skies, formed ideal weather and water conditions. The start was made in a bunch, several in some cases, getting over the line at the same time. Four local cat boats, in class S, started at the same time, finishing once over the course.

The yachts then strung out and for the first round and a half was clearly a class for class race. Mischief II overhauled her sister ship before the first mark was reached and maintained the lead. Venus led the Wasp a merry chase to the same mark and lost her rival hopelessly. Wasp dropping behind the yaws, which, for nearly the entire course, brought up the rear, finishing last, but winning third place on time allowance.

The judges were Stewart Laughlin, chairman of the Regatta Committee, and A. Lester Best. Tonight there will be a smoker in the Elks' Club for the visiting yachtsmen and on Friday evening a grand ball at the Hotel Fort. Tomorrow morning at 9:30 o'clock there will be a race for girls from the schooners Argosy, Anemone and Skidolaluir. At 10:30 there will be a power-boat contest, and at the same hour there will be the first in Oakland Stake and Prince Lock in Two-Year-Old Event.

Associated Press Night Report: SAN FRANCISCO, Aug. 12.—Good sport and a large attendance marked the opening of the harness meeting under the auspices of the Alameda County Fair Association, at the Oakland track today.

Interest centered principally in the free-for-all pace, in which Mona Wilkes and Sir John S. not being in proper condition—Emily W. first in Oakland Stake and Prince Lock in Two-Year-Old Event.

The 220 class trot, Greater Oakland Stake, \$2500: Emily W. (Pounder) 1:55.1; Lady Lutz (Culic) 1:56.2; The Salesman, Monlorat, Lady McKinnon, Judge Dillon, May T. started. Time 2:17.2; 2:15.2; 2:15.2; 2:15.2.

Free-for-all pace, purse \$500, entrance free: Mona Wilkes (Chadbourne) 1:51.1; Sir John S. (Vance) 1:52.2; Time 2:15.2; 2:07.2.

Butte Results. BUTTE (Mont.) Aug. 12.—Racing results: Five furlongs: The Slicker won, Aunt Kit second, Minnie third; time, 1:02. Six furlongs: Valoski won, Hal Reed second, Reno Reed third; time, 1:01.4. One and one-sixteenth miles: Sir Wemy won, Benovol second, Voompolix third; time, 1:49. One and one-sixteenth miles: Woolen won, Tarp second, Cardinal Sarto third; time, 1:48. Six furlongs: Husky won, Belle Scott second, Rene W. third; time, 1:15. One mile: Willie T. won, Joe Wooten second, Vinton third; time, 1:44.5.

Seattle Card. SEATTLE, Aug. 12.—Results: Six furlongs: Prolific won, St. Francis second, Emma G. third; time, 1:14. Five furlongs: Inclement won, Miesla second, Fair Annie third; time, 1:01.5. Five and a half furlongs: Kerry won, Belle Kinney second, Silver Stocking third; time, 1:07. One and one-sixteenth miles: Logieella won, Pedro second, Tony Faust third; time, 1:47. Mile: Forest Rose won, Jacobs second, Pertrero Grande third; time, 1:42. Mile: Ariolo won, Legal Form second, La Rose third; time, 1:43.

Rain Stops Shooting. CHICAGO, Aug. 12.—A deluge of rain interrupted the rifle shooting contest of the army experts at Fort Sheridan today. Rain also interrupted the afternoon session, and but two ranges were completed at rapid fire. Sgt. William Cox, Co. M, Twenty-seventh Infantry, northern division, who was second in the morning shoot, was first in the afternoon, his total being 66. Seven points behind was Private Clarence A. Burroughs, Twenty-seventh Infantry, Cuban division. First Sgt. J. E. McNabb, Troop K, Eighth Cavalry, northern division, was third, with 61.

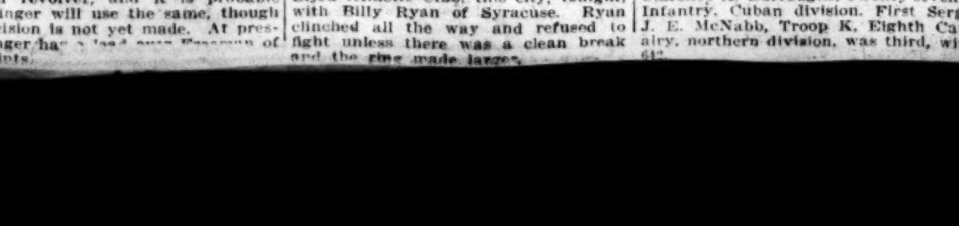

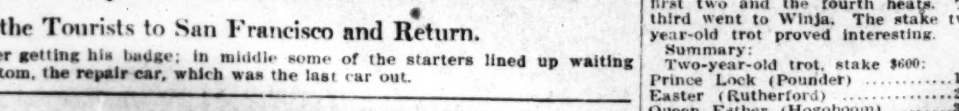

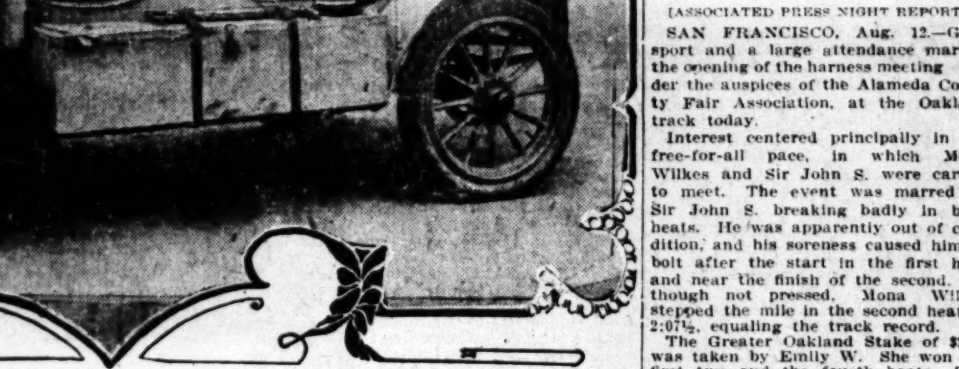

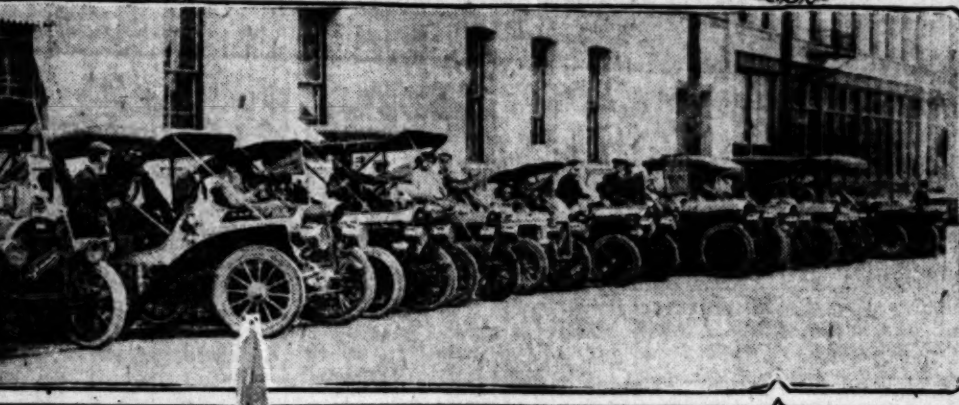

Keyes Beats Ryan. BINGHAMTON (N. Y.) Aug. 12.—[Exclusive Dispatch.] Keyes won on points in a six-round bout before the Biot Athletic Club, this city, tonight, with Billy Ryan of Syracuse. Ryan clinched all the way and refused to fight unless there was a clean break and the five made large.

BIG SHOOT SECURED. Interstate Bluecock Tournament to Be Held Here Next Year—Many Experts Will Compete.

The success of the recent Venice bluecock tournament has assured the holding of the Interstate tournament next year, on the week following the Elks' convention. This will be the greatest shooting event ever held in California. Three hundred or 400 shotgun experts from all over the United States are expected. Special railroad rates will be given, and the prize list will be such as to attract the talent of the country. The management of the affair is in the hands of men whose names are synonymous with success.

REVOLVER MATCH. SINGER AND FREEMAN ON. Joe Singer and Capt. Archie Freeman will shoot the extra event in their all-around match at Schuetzen Park tomorrow afternoon, at 2:30 o'clock. This will consist of twenty shots each with target revolvers at the standard American target at fifty yards for a possible 200 points.

Freeman will use a 32-44 Smith & Wesson revolver, and it is probable that Singer will use the same, though his decision is not yet made. At present Singer has a lead over Freeman of 101 points.

VENUS FIRST
IN YACHTING.Santa Barbara Race Proves a
Little Surprising.Mischief II, Scratch Boat,
Ends in Fifth Place.Small Birds Fly as Rapidly
as Large One.

(BY DIRECT WIRE TO THE TIMES.)

SANTA BARBARA, Aug. 12.—[Ex-

clusive Dispatch.] Venus, first owner,

K. R. Bradley; Mischief II, second,

owner, Warren D. Wood; Wasp, third,

owner, A. M. Squire; Minerva, fourth,

owner, Commodore R. T. Spalding;

Mischief II, fifth, owner, Walter Fol-

son; Arrow, last, owner, Francis Hay.

This is the way the opening race of

the second annual regatta of the South

Coast Yacht Club finished this after-

noon, after a pretty contest, which

was ever waged in the history of the

organization.

Three classes participated, the Mis-

chief II and II, in class N; Minerva

and Arrow, in class P; and the Wasp

and Venus in class Q.

The course was triangular, two and

one-half miles on each leg, constitu-

ing a reach, a dead beat to windward

and a broad balloonier reach home,

twice around for fifteen miles. The

start was at 2 o'clock.

A fairly strong westerly breeze and

comparatively smooth water, together

with clear skies, formed ideal weather

and water conditions. The start was

made in a bunch, several in some cases,

getting over the line at the same time.

Four local cat boats, in class S, started

at the same time, finishing once

over the course.

The yachts then strung out and for

the first round and a half was clearly

a class for class race. Mischief II

overhauled her sister ship before the

first mark was reached and maintained

the lead. Venus led the Wasp a merry

chase to the same mark and lost her

rival hopelessly. Wasp dropping behind

the yaws, which, for nearly the entire

course, brought up the rear, finishing

last, but winning third place on time

allowance.

The judges were Stewart Laugh-

lin, chairman of the Regatta Commit-

tee, and A. Lester Best.

Tonight there will be a smoker in

the Elks' Club for the visiting yachts-

men and on Friday evening a grand

ball at the Hotel Fort. Tomorrow

morning at 9:30 o'clock there will be

a race for girls from the schooners

Argosy, Anemone and Skidolaluir. At

10:30 there will be a power-boat con-

test, and at the same hour there will

be the first in Oakland Stake and

Prince Lock in Two-Year-Old Event.

Associated Press Night Report: SAN

FRANCISCO, Aug. 12.—Good sport

and a large attendance marked the

opening of the harness meeting under

the auspices of the Alameda County

Fair Association, at the Oakland track

today.

Interest centered principally in the

TH AND SPAIN

The importance of this announcement, the one to which I have carefully led up, can be seen when I assert—

I am in absolute control of a corporate instrument

quite to cope with the machinery of the System; I

will make demonstrations of its power to perform what

has been predicted for it.

To get the volume of my dynamo, keep in your head

financial factors I have so insistently urged upon your

attention.

1. The System's billions are made by its power to

and away the stock market values of the \$70,000,000

of securities which the American people now hold.

2. The System's "right" to use the people's money

posited in the banks and trust companies of the nation

is it with the millions necessary to the process of

and swaying the values of American securities.

3. The stock market must be the theater of opera

for whoever purposes to dislodge the System's

hold on the American people.

All these necessary conditions are here in the

National Stock

LEGAL NAME, BAY STATE COMPANY.

CAPITAL ONE BILLION DOLLARS; 20,000,000

SHARES.

CAN INCREASE TO ANY NUMBER OF

BILLIONS.

FREE FROM TAXATION.

BACKED BY A SOVEREIGN STATE.

NOW HAS 60,000 STOCKHOLDERS.

INTENDS TO HAVE 20,000,000 STOCKHOLDERS.

THE ONLY CORPORATION IN EXISTENCE

TODAY WHOSE SCOPE AND LEGAL

AND STRATEGICAL POWERS ARE UN-

LIMITED.

CHARTERED TO OWN AND OPERATE

BANKS, TRUST COMPANIES, RAIL-

ROADS, INDUSTRIES, AND TO BUY AND

SELL AND HOLD ITS OWN AND ANY

STOCK IN EXISTENCE AND TO CARRY

ON ANY AND ALL KINDS OF BUSINESS.

Today I am in absolute control of this extraordinary

instrument, the only one of its kind on earth.

I am its president and have the proxies of nearly all

stockholders, with special instructions from them to

my own board of directors.

"National stock" is the one instrument that unites

the privileges and attachments essential for a pro-

fessed contest with the System.

I know the how, when and why of the System's

movements.

I am now ready to put this instrument to work.

That skeptical wedded-to-old ways Wall street and

the Press may instantly see that my

notwithstanding they read Jules Vernish, are

and that "business is business," I point them to the

following:

In the past, as these three classes, Wall street, the

Press, and the people, I have never failed to secure

attention of the people and then their money support.

My radical plans seemed at the start-off, time

unconstraining their soundness. Boiled down, this is what

propose to do.

In "National Stock," I have a corporation with un-

limited capital stock.

This stock I shall offer in practically unlimited

amounts to the people, constantly advancing the price

of the open markets that every buyer may, if he wishes,

what he has bought at a profit. This means that

every buyer of "National Stock" will become an agent

in the making of new stockholders amongst his friends

and associates.

The proceeds of the sale of stock will be used in

diverse operations in the market with and against the

System as seems best in my judgment, in underwriting

and any other ways that will return the institution profits.

Illustration:

Whenever in the past I have appealed to the people

the interest of a stock and they have responded, the

money they paid has always gone, less my pay for the

b, to the corporation whose stock I had sold, thereby

making me helpless to protect its price in the market.

Bear in mind there are two classes of people who

buy stocks: Speculators and investors.

The marketing of a stock is only a first move in a stock manipulator's business.

To be successful he must establish his proposition on a recognized trading basis. This can only be done by deliberately making a market for it.

Example:

My first move in wielding the power of "National Stock" for the benefit of its stockholders, the public, will be certain and aggressive operations in American Smelters, National Lead, Trinity and First National Copper, St. Paul Railroad and Yukon Gold. An event still soggy in the public mind will show the procedure. At a time when the market was hardly out of the convulsions of the panic, and when even the System could not sell any stock to the public, I undertook for the American Smelting group of capitalists, "The Guggenheims," to sell to the public 700,000 shares of Yukon Gold—intrinsically worth then and now \$12 to \$13 per share—which I did in two hours on Saturday, March 28, at from \$5 (par) to \$7. By the rules that govern such transactions I turned over to "The Guggenheims" the proceeds of the shares I had sold, less my pay, thereby leaving the stock unprotected and exposed to the attacks of the System, which, fearful of my success, jumped on its value, thereby inducing speculators to believe they had been tricked and causing them to sell, leaving the market price under the thumb of the System.

Had "National Stock" handled Yukon, the money paid by the public would have been retained to support the stock in the market, buying all the stock that was offered either by those who wished to sell for profit or by those who by selling freely wished to attack the value, the result being that in a short time the stock would have been firmly established on a rock bottom basis of its intrinsic value, at \$12 to \$15, and impregnable to speculative attacks. After this had been accomplished the money received for the stock then outstanding would have been paid over to "The Guggenheims." With the resources of "National Stock" this could be done, not only in Yukon, but in the other stocks which I have mentioned, and in any others to which "National Stock" directs its powerful attention—and stocks which the System's machinery has perched too high can be yanked down to their proper level by "National Stock."

That there shall be no misunderstanding as to the character of "National Stock," I say right here at the beginning of its career that the chief theater of its first operations will be the stock markets of New York, Boston and Philadelphia and eventually of London, Paris and Berlin. The funds derived from the sale of its shares will be applied in exactly the same manner as the System uses the people's savings in banks and trust companies—to sway and fix the prices of stocks in which it deals. You already know something of the profit possibilities of such operations, but, conducted on the scale permitted by the resources I shall command, results will be as stupendous and as certain as the System's own processes. Whatever "National Stock" sets out to do in the market its ready and unnumbered millions will enable it to crush through in spite of the System's opposition. Those same ready and unnumbered millions will be as effective in forestalling any stock move of the System with which "National Stock" does not concur.

A Word Here

It has developed since the writing of my first advertisement that it is a physical impossibility to print in this space—even in this full page—what I intended: the plans of "National Stock."

I have, therefore, decided to break off here and rush the full story into a pamphlet.

This means that the first necessary action which confronts me is the getting of this pamphlet into the hands of every man and woman in America.

With my story of "National Stock," its intentions and plans in the hands of the people, the people will buy "National Stock."

If the people buy "National Stock" the price will be \$10.00 to \$12.00 per share, they will make a profit of at least 500 to 750 per cent. for every dollar they invest now will turn into \$10, which performance will cause the people to enthusiastically back "National Stock" in its battle against the System.

With the millions of the people's savings, and their enthusiastic backing, "National Stock" will be able to bowl over the System in short order and "National Stock" will become the greatest instrument of modern times for the righting of the people's wrongs.

I might as well admit before you go further that these four advertisements have been published, and at a cost of \$150,000, for no other purpose than to get the public into a frame of mind where they must have the story of "National Stock"—the story of its plans and intentions. I mean by this that these advertisements were not published for the purpose of booming "National Stock" or for securing buyers for it now, but solely for the purpose of getting before the millions a certain document of too sensational a nature to be printed in a newspaper advertisement.

This means I intend to compel every man and woman in America to send for this pamphlet now, not next month or the month after next, but now. I say now because—

1. Everyone who gets it must read it.

2. Everyone who reads it will at once become a stockholder in "National Stock." Whether he buys a single share for a dollar and a half to two dollars or 100,000 shares for \$150,000 to \$200,000 is of no import to "National Stock." What "National Stock" wants, must have, is going to have, is stockholders, a vast number of stockholders. It now has rising 60,000, the largest number of any corporation in the world, with the exception of the Steel Trust. It intends to increase this number to less than sixty days to 600,000, and to 1,600,000 in less than three months.

3. Everyone who reads this pamphlet will not only become a stockholder but will, because of a certain document contained in each pamphlet, create other stockholders.

4. Each day that goes by will, because of the automatic workings of "National Stock" plans, cause the price of "National Stock" to mount higher.

Stock Market Activity

This is why I say everyone must have a copy now, not when "National Stock" has advanced in the market to \$10 per share. Bear in mind as my plans work out, the extensive advertising will mean increased activity in "National Stock" in the stock markets of the country, which, as I will state it, will make for constantly advancing prices, until the excitement generated by "National Stock" will top all of the past stock market activities which have been witnessed.

The culmination of my Amalgamated station caused mobs of buyers to surround the National City Bank, the Standard Oil Bank—the biggest bank in America—day and night at the opening of subscriptions. The tremendous activity and rise of Trinity (1000 per cent. in less than 1000 stock exchange hours) last year brought such a mob of buyers to the stock exchange as to cause a panic to the banking of all visitors. My Yukon campaign caused the calling of the New York police to Wall street to control the great army of buyers who flocked to that center, and the "Lawson panic" in December, 1904, dropped prices over \$1,000,000,000 in three days.

Also bear in mind another reason for this price advance and activity. I will advertise throughout the world at the completion of each of my stock market deals, their exact history, showing in the results the big profits which have accrued to "National Stock" which profits will be reflected at once in increased activity and advance in the price of "National Stock."

The arguments contained in this series of advertisements are not intended to urge the purchase of "National Stock." They are solely for the purpose of showing the public—all classes of the public—that it is a duty they owe themselves to send at once for a "National Stock" pamphlet which will be sent free to all upon application. Later on my advertising will be brutally brief in its effort to induce the public to buy "National Stock," and brutally thorough in its assaults upon the stocks of which the "National Stock" has first gone short, and brazenly booming of the stocks of which it has first gone long. These advertisements are solely for the purpose of getting the "National Stock" into the hands of the people, to the number of 600,000 people now. To that end I earnestly ask the following classes to apply at once for this pamphlet:

Bankers, brokers, ministers, school teachers, city and town officials, presidents and cashiers of national banks, presidents and treasurers of savings banks, heads of labor unions, superintendents of mines and manufacturers and other business, newspaper editors and reporters, weekly and monthly periodical writers, postmistresses and postmasters and savings bank depositors.

I call the attention of these particular classes to this pamphlet because each copy will contain a document extraordinary in itself and of vital interest to each member of the classes I have enumerated.

New Banks and Trust Companies

EXTRACT "A" FROM PAMPHLET.

With the funds supplied by the sale of "National Stocks" banks and trust companies will be established, in which the people will deposit their money, to be loaned out at rates of interest only large enough to conduct a legitimate banking business and to make a fair return to the stockholders.

Today the System banks exhibit statements showing enormous earnings and surpluses, which if their deposits were loaned back to the people at fair rates, would be as impossible as the present policy of the System, which has caused the people to be housed, costing millions wrung from borrowers and returning nothing on the investment.

Example:

In New England today there is a national bank and trust company, two of the score in New England controlled by the System. Their combined deposits belonging to the people are \$75,000,000 and the combined assets, belonging to the System, has risen in value in a short period more than \$12,000,000. The enormous profits fully set forth in the annual statements of these institutions, which they have siphoned from the community of New England, in addition to \$3,000,000, which is six per cent. annual interest on the capital stock of both, were not accumulated by the production of anything marketable or by any recognized form of business, nor are they the conservative profits of legitimate banking, but they are the rich spoils of System manipulation of the people's deposits, augmented by the wreck by consolidation of many of New England's oldest and soundest banking institutions.

Confronting this situation, "National Stock" will take a part of the proceeds of the sales of its stock or the profits made in its stock market operations, and set up duplicate banking institutions alongside of the present. The foundation of each will be an ideal charter that will bar even the owners of "National Stock" from securing directly or indirectly any profit other than five per cent. upon the capital invested. All surplus will be returned annually to the depositors in the form of interest upon

deposits or to borrowers through New England in the form of reduced loan rates, or will "National Stock" retain for itself the control of direction of the institutions. Their management will be absolutely placed in the hands of the best of the old bank officials, who will be selected from those who have been driven out of business, or from savings bank officials.

After these facts have been advertised, as "National Stock" will advertise them, it is inevitable that the depositors of those System institutions, when the opportunity is offered, will transfer all or a large portion of their deposits to the new institutions and that the borrowers will secure their loans from the new institutions. And the establishment of these two banking institutions by "National Stock" will make easy the creation of similar institutions in the other large cities wherever the business men and depositors are being exercised between the upper and nether millstones of the System.

Great Profits in National Stock

EXTRACT "B" FROM PAMPHLET.

"National Stock" after it has made helpless the Rockefeller, Harrimans and Morgans in the same way the System rendered helpless the people last October, after it has vast sums of cash in its treasury and has banded together at least 1,600,000 of intelligent stockholders, will use these stockholders and its vast resources to convert back to the people the ownership of the great industrial and financial institutions of the country. No miracle is promised here, but the disintegration, inevitable from the coups I shall inaugurate, will loosen the System's hold on these concerns and they will be taken possession of and reorganized by "National Stock" in the mere process of events.

The backbone of "National Stock" which can and will bring about these things is its stockholders. The more stockholders there are the greater will be its power to accomplish these things that I have set down, the quicker the results from the sale of stock and all profit made by it in any way will be the property of all stockholders alike.

6. Not a dollar of "National Stock" funds or property comes to me, in profits, salaries, or in any way.

"National Stock" starts with about a million cash. Before the public or the System are fairly aware that it has begun business this million will have been turned into \$40,000,000 by the sale of 2,500,000 shares of "National Stock" at an average of \$2 per share, and 2,500,000 shares at an average of \$4 per share, and this \$16,000,000 thus received it will have made profits of twenty-four millions out of Wall and State streets stock deals.

Tremendous Market Deals

EXTRACT "C" FROM PAMPHLET.

It is common knowledge that in many of my previous stock market campaigns, whenever I predicted the rise or fall of a stock, the System could make it go temporarily the other way by the sheer weight of money. As they did in Yukon, so they did long ago in Amalgamated. After I sold the stock to the public at 100, the System slaughtered its price to 25; then, after accounting me discredited, they allowed it to rise to 121. After Copper Range had gone down from 10 to 50, the System drove it back to 25, then allowed it to rise to 105. Butte and Boston having risen on my advice from \$2 to \$46, was driven next to \$14, then allowed to advance to \$150.

And so on through the list of other stocks I have handled against the System, even to the last two, American Smelters and St. Paul. At 57 I sold to the public, Smelters will go to 100 and at 120 St. Paul will go to 175. Smelters, because of the purchases by the people who absorbed my advice, immediately mounted to 73, when the System drove it back to below 60. St. Paul they drove back to 90. Now it is 147, on its way to the 175 I pointed to.

To that System which has done all these things I have a final word to say: Watch the activities of "National Stock." In its rise you will see all your power ebb. When you read in one of my advertisements that St. Paul, or Trinity, or Yukon, or First National, or Smelters, is going to advance, it will advance and you will be powerless to prevent. When you read in one of my advertisements that one of your arbitrarily hoisted stocks is going to drop to its proper price level, that stock will drop to that level, and you cannot stay its fall.

Watch them all go up or down as "National Stock" dictates, and you will see the billions which you have stolen from the people go back into their pockets. Watch the banks through which you have robbed them crumble and disappear, and the great industries through which you crush them begin to make fortunes for the people instead of you.

The power which will accomplish these seeming miracles is the same power which has performed them so often in the past at your own bidding, for your own enormous benefit. In the hands of "National Stock" the irresistible power of the people's money will be exercised for your destruction, and the vast product of the people's labor will go to the people themselves.

THOMAS W. LAWSON

SENATORIAL CAUCUS DEFEATS CURRIER.

Net Results in County Just as Reported in Yesterday's "Times." Taft Republicans Win All but One Assembly District.

THE Republican convention delegates of Azusa, Azusa City, Glendora, Covina and Covina City precincts in the Thirty-fifth Senatorial District caucused at Covina last night and agreed to vote as a unit in the county convention for P. F. Cogswell for the Assembly and N. W. Thompson for the Senate, both being Taft Republicans. These precincts represent seventeen delegates. Their declaration for Cogswell and Thompson assures the election of both and the defeat of Currier, the L-R League candidate for the Senate.

It looks as if the delegates to the Republican County Convention might conclude to make it unanimous by the time the convention meets at Shrine Auditorium next Tuesday morning. Twenty clerks were kept busy all afternoon yesterday piling up majorities that came sweeping in for the Taft candidates.

The Lincoln-Roosevelt bosses are now all in a class with former Judge Alton B. Parker—defeated by acclamation. The veterans at the Soldiers' Home suitably rewarded Marshall Stinson's efforts to disfranchise them; they rejected the league candidates by a vote of 674 to 6.

Messengers delivering belated returns yesterday explained their delay by saying that the majorities were so big that it required considerable time to bring them in.

Giving to the league all the delegates now claimed as doubtful, its vote in the Republican County Convention will not be more than 310 out of a total of 683. Wagers were offered freely last night that the league would not be able to muster 200 delegates.

Returns last night from the Thirty-fifth Senatorial District show that N. W. Thompson won 107 out of 181 delegates in that district. His election to the Senate is assured. It is possible that A. T. Currier, his chief opponent, will withdraw before the convention meets.

THE LEAGUE'S REVERSALS.
The league bosses themselves concede that the Taft Republicans won two-thirds of the delegates elected in Los Angeles city. This is a splendid reversal of form since the May primaries, when the league carried three of the seven city Assembly districts and twenty-seven of the fifty-six delegates to the State convention.

In May the league carried the First, Third, Fourth and Fifth wards; Tuesday it lost them all. Twenty precincts west of Main street that voted for the league in May returned only Taft delegates in August. These splendid victories on the scene of their former defeat have wrought the Taft Republicans to a high pitch of enthusiasm.

A few of the rank and file of the Lincoln-Roosevelt forces sent word to the headquarters of the Republican League yesterday that they are now ready to get in line for the November campaign, but the leaders are not numbered among these. The defeated bosses are sulking in their tents. Some of them will be "out of the city" during the Presidential campaign.

CAUCUSES.
The Taft Republican delegates are already caucusing and getting ready for the convention next Tuesday. Los Angeles city will probably ask for the chairmanship of the convention. The Native Sons have begun their boost for George Beebe for chairman.

This is the movement of the young men. The veterans are likely to decide on an older man and there may be a pretty skirmish on the floor of the convention over the chairmanship. E. A. Meserve was mentioned last night as the probable choice of the veterans.

Azusa, Azusa city, Covina, Covina city and Glendora have caucused and decided to vote as a unit for Cogswell and Thompson. This caucus was held at Covina last night; it contains seventeen delegates.

Invitations have been extended to El Monte, Duarte and Monrovia to join the Covina caucus and the indications are that these twelve votes will be bound by the same unit rule before the convention meets. All this goes to swell the majorities of the Taft Republicans, as these precincts are in what has been classed as the "enemy's" country.

"We shall have to place a couple of extra tiers of seats in the band wagon to accommodate the crowd," said Chairman Moss of the Taft campaign committee last night.

In the Taft forces the district captain of Main street and vicinity is conquering heroes by the rank and file. It was in these districts that the victories were won and some of the delegates will be discussed as long as the present generation remains in politics.

Councilman Healey expressed the sentiment east of Main street and vicinity when he said: "We didn't think silk socks could be got in right in so short a time; guess they don't like

IMMIGRATION STATE'S NEED.

Texas Railroad Man Says We Have Just Started. Our Surface Only Scratched With Bent Stick.

"California hasn't been more than scratched with a crooked stick," is the astonishing comment made last night by G. Radetzki of Houston, head of the Harriman lines of Texas. In a special interview with a Times reporter at the Alexandria Hotel, he expressed surprising enthusiasm for the future of California. Although he

Who has found a lemur? One named Panchito escaped from its cage at No. 1011 Vernon avenue, the home of J. C. Bresler. Tuesday night, and neighbors have been on the watch ever since, but the pretty pet from Panama, Old Mexico, has not been found. The lemur belongs to the children of Mr. and Mrs. C. F. Earle, No. 517 East Thirty-fifth street. The boy, Rudolph, and the misses, Lucille and Gertrude, have just come from Old Mexico with their parents and brought two pets, a cockatoo named Romeo and the lemur. The lemur was bought for \$10. from a Mexican boy. Panchito lives on bananas, but will get none of her favorite food unless she falls into friendly hands. Through an oversight the cage was left open and the pet escaped. All the trees in the neighborhood were searched but no trace of the lemur was found. The children are inconsolable. They fear that a dog will eat the animal.

The lemur is a species of monkey, with a long tail, and has fur the color of a teddy bear. There are many varieties, some quite savage, but the one from Southern Mexico is decidedly gentle. The Earle children cared for the lemur six days on the train, from their Mexican home.

REJECTED THE LEAGUE.
Here are a few precincts taken at random as straws in the air to show the sentiment toward the League bosses changed between May and August: Precinct No. 4 went for the League in May; on Tuesday the vote was, Taft, 84; League, 81.

Precinct No. 10 was carried by the League in May by 11 votes; Tuesday the vote was, Taft, 68; League, 43. Precinct No. 11 voted in May, Taft, 40; League, 71. Tuesday's vote was, Taft, 106; League, 63.

Precinct No. 15 voted in May, Taft, 35; League, 48. Tuesday's returns read, Taft, 71; League, 41. Precinct No. 27 voted in May, Taft, 43; League, 55. On Tuesday the vote was, Taft, 108; League, 59.

Precinct No. 32 voted in May, Taft, 35; League, 71. Tuesday's vote is, Taft, 77; League, 59. Precinct No. 34 voted in May, Taft, 19; League, 20. This precinct voted Tuesday, Taft, 24; League, 20.

Precinct No. 43 voted in May, Taft, 34; League, 52. Tuesday the Taft vote grew to 43 and the League vote shrank to 37. Precinct No. 53 voted in May, Taft, 39; League, 116. Tuesday's reversal shows, Taft, 128; League, 45.

Precinct No. 54 voted in May, Taft, 63; League, 74. In August the vote was, Taft, 117; League, 58. Precinct No. 65 voted in May, Taft, 37; League, 60. On Tuesday the vote was, Taft, 90; League, 42.

NO CHANGE IN RESULTS.
The official returns confirm the election results as printed in The Times Wednesday morning. The Taft Republicans carried eight of the nine Assembly districts in Los Angeles county, two Senatorial districts, three Supervisory districts, and won the county convention by a majority of not less than 200 votes. The lone victory of the league is the winning of the Sixty-seventh Assembly District, which includes Pasadena and a few country precincts.

The Taft Republicans control Patterson's Supervisory district, but not all the Taft delegates are willing to vote for Patterson for reelection, and it is possible that R. W. Fritcham may receive the nomination from the Taft Republicans.

"UNCLE GEORGE."
"Uncle George" Alexander is a suppliant at the office of the Taft Republicans in his Supervisory district. After promising to keep hands off, Alexander deserted at the eleventh hour, body and breeches, to the league, only to find that the Taft Republicans won handsily without him. If he receives the nomination from the Taft Republicans, it will be on condition that he cut out his gallery play during the next four years.

In the Sixth Ward, where Alexander was supposed to be strongest, his revolt was most complete. Now the Sixth Ward has a candidate for Supervisor in the person of H. D. McCabe, a Sixth Ward contractor.

M McCabe's friends say that Alexander is pledged to support McCabe in case the latter is nominated. This promise, if kept, would not prevent Alexander to run as an independent candidate.

RANCHER HELD UP.
Gives Two Men a Ride, Then Is Compelled to Give up His Money.
T. Penturf, a Montebello rancher, was held up and robbed of \$24.75 at 7 o'clock Tuesday evening on the Whittier road by two young men whom he gave a lift in his wagon. Penturf says that the men were walking along the road, and asked him for a ride, which he gave them.

After traveling two miles, one of the men dropped his hat from the wagon, and when the team was stopped Penturf saw a revolver in the hand of the man who gave him a lift. Penturf refused, and the other man on the seat struck him a blow on the head with his fist, saying, "Give us your money." The two men then drove his wagon and ran across the fields toward Pasadena. Penturf was able to drive his team home. He reported the hold-up to Under Sheriff Dishman yesterday, but was unable to give a description of the robbers.

INSANE FEAR COSTS A LIFE.
Sufferer from Fever Contracted in Philippines Takes Fatal Drought and Dies in Presence of Wife and Child—Had Brooded Long Over Fancied Wreck of Mind.
Fearful of becoming insane, Franklin L. Carney, a veteran of the Philippine campaign, committed suicide last night at his home, No. 214 South Fremont avenue, by drinking cyanide of potassium.

Carney staggered into the presence of his wife and little stepdaughter, holding the empty bottle in his left hand and grasping at his throat with his right. He made a frantic effort to speak, and then dropped dead on a bed.

FIGHTING THE PESTS.

Government Expert Will Demonstrate New Methods of Preserving Fruit Trees from Injury.

Orchardists and ranchmen with fruit trees to care for will be greatly interested in the address on Saturday morning at 10 o'clock before the County Horticultural Commission of W. S. Woglum upon the result of his long investigation, covering a period of a year and a half, of fumigation for the eradication of insect pests and the new methods he has discovered to preserve citrus and other trees from injury.

Mr. Woglum was sent to the Pacific Coast by the Department of Agriculture to make a special study of this phase of ranching in California, and will spend still another six months winding up his work here. It is stated by Secretary Ervin Dingle of the Horticultural Commission that Mr. Woglum has accomplished an important work for the benefit of citrus fruit raisers, and all are invited to the meeting Saturday morning at 10 o'clock.

It was to further this work of investigation that the government set aside \$5000 and it is stated that the result of the work done will be a thousandfold eventually to the ranchmen of this State. Mr. Woglum will conduct interesting demonstrations of his new methods of handling pests before the commission, which will be presided over by Chairman Meserve.

UNUSUAL CASE OF CONDUCTOR.

ACCUSED OF "KNOCKING DOWN" RAILWAY FARES.

Los Angeles and Redondo Employees Arrested on Complaint of Company's Attorney—Spotter Reports Prisoner Held Out Over Hundred Dollars While He Was Watched.

"Knocking down" fares is an unusual charge against a conductor on the electric railways of Los Angeles. The managements of the various lines, with the discipline maintained and the excellent conditions which prevail, with chances of promotion and extra pay for their men, have found comparatively few cases where conductors would jeopardize their position for the sake of the few fares which could be stolen without detection.

But the record for wholesale "holding out" of fares was broken yesterday when John W. Estes, a conductor on the Los Angeles and Redondo Railway, was arrested on a charge of misdemeanor embezzlement and locked up in the County Jail in default of \$1000 bail.

The complaint upon which Estes was arrested was sworn to by an attorney for the railroad before Justice Upham, and charges the conductor that the conductor embezzled \$10 last Monday. Estes will be arraigned in the Township Court tomorrow.

Estes has been in the employ of the railroad for several months, and was apparently a careful and conscientious conductor. But recently there was a decrease in the amount of fares returned, and several suspicious circumstances developed which caused a detective to be placed on his trail with the result that the first arrest of this kind for a long time was made by Deputy Constable Roberts.

According to his report the "spotter" asserts that during the time he watched the conductor the latter "knocked down" more than \$100 in fares. It was stated last evening that the railway will prosecute this unusual case to make an example.

LOAD TOO HEAVY. L LOSES CHILD. SEEKS DEATH.

FORMER LOS ANGELES MAN IN DOMESTIC TROUBLE.

Failing to Get the Custody of His Daughter, and Wife Suing for Divorce, He Slashes Wrist in Des Moines—Now on His Way Back to This City.

Failing to secure a reconciliation with his wife who is suing him for divorce, Fred M. C. Choate, for some time a resident of Los Angeles, attempted to commit suicide in Des Moines, Iowa, yesterday. He slashed his wrist with a pocket-knife and but for prompt medical attention would have died from loss of blood. His friends kept close watch upon him until he boarded a train for Los Angeles. He promised to make no further attempt upon his life.

Choate came here from New York last winter. He was in ill health. He made no effort to establish himself in business but stated before his departure for the East a few weeks ago that he would return here with his wife and daughter and purchase a home.

He attended Christ Episcopal Church and there formed many friendships. He carried excellent letters of introduction from New York, where his father, Judge William Gardner Choate, is well known.

One of his Los Angeles friends received a letter from Choate a few days ago, stating that he was in some domestic trouble, but that he expected to adjust matters satisfactorily before coming back here.

Mrs. Choate has been living in Des Moines for some time with her sister, Mrs. F. E. Lambert. After her husband established a legal residence, took steps to secure a divorce from her husband on the grounds of cruel and inhuman treatment. In her complaint she alleged that he had threatened to kill her and had tried to shoot her.

Choate was served with notice of the divorce suit as he was on the witness stand in a Des Moines court, in a habeas-corpus case to secure the custody of his daughter. Friends of the couple at once tried to effect a reconciliation, and husband and wife met for a conference in the law office of her attorney, Mrs. Choate, however, refused to abandon her divorce proceedings. The court made an order, giving the custody of the daughter to the mother.

Before attempting suicide, Choate coldly bade his wife good-by, but wept at parting with his daughter. Mrs. Choate will remain in Des Moines until her divorce comes up for hearing.

MINES AND MINING.

IMPS WILL DROP TODAY.

and Mine's New Mill Is Now Complete.

Capital Reopens Old Oregon Bonanza.

Copper's Big Place in Metal World.

amous old Ashland mine, situated in Oregon, which is being developed by the Capital Copper Co., will begin producing today, the working ten-stamp mill from the mine having been completed.

The improvements were carried on with money supplied by stockholders in this city and are expected to be forthcoming within the next few days.

Received from the property, a mining engineer and who is eminent in his profession that there are 3170 tons of ore in sight ready to be mined and according to 400 assays made by the Capital Copper Co. and the Oregon Gold Mines, the previous owners of the mine, the values run from \$10 to \$20 per ton. The ore from which the mine is being developed is of an average of three feet and from six to ten feet in thickness.

is from mill, the ore is in walls. Sulphide ore is also abundant and this material will be used to the smaller at Tacoma. The lower-grade vein developed property is twenty-two feet between walls of granite, and about 2500 tons of free and concentrating. This is developed by a tunnel 250 feet, through rock to the lead, and thence to the main shaft. Half a mile to the north has never been reached.

main shaft dips at an angle of 30 degrees and has reached a depth of 385 feet. Of the ore in sight are above the 200-foot level, about 3000 tons of free and concentrating. The balance of the ore in sight is made up of 100,000 tons of free and concentrating. The company now gets 12,000 gallons of water every twelve hours by flume; the water is pumped to the mill, which is flooded below the 750-foot level, thirty-five barrels a day. It is estimated that the horsepower boiler will require an hour, the stamps, which are of the 1000-pound capacity, each per hour, and the Johnson concentrators 250 each per hour—a total of 35,000 gallons of water every hour at the mill. It is found advisable to the mill capacity water to be pumped three miles.

The local company commenced work on the property a complete 100 feet of twelve-pound rail; of five-eighths cable; one battery (two pieces) 125 feet 125 feet in length. All the material has been hauled from Ashland, and the mill is now being built on the foundations of the mill are being laid with massive timbers and will be about 100 feet deep. The results of the run will be anxiously awaited by local stockholders; but it is believed that practically all of the risk has been eliminated and that the returns will be to expectations.

In Copala.

Los Angeles capital is assisting in the development of the Copala mine in the southern portion of the State. The mine, which is being developed by the Capital Copper Co., is a third owner of the property, consisting of 120 shares. The company has accomplished 2000 feet of work and has opened 2000 ore-shoots, ranging from 500 feet in length. The ore is of three or four veins, varying in thickness from six feet, with an average of about \$20 in gold, and good values in silver. Some mining as high as \$300 in gold, silver and copper. The formation in the veins is in andesite. The property is well supplied with water and will be within five miles of the Southern Pacific.

Two within the next four months it takes six hours to reach the property from Copala. About gold has been expended upon the property.

George P. Beveridge, of the Capital Copper Co., is a third owner of the property, consisting of 120 shares. The company has accomplished 2000 feet of work and has opened 2000 ore-shoots, ranging from 500 feet in length. The ore is of three or four veins, varying in thickness from six feet, with an average of about \$20 in gold, and good values in silver. Some mining as high as \$300 in gold, silver and copper. The formation in the veins is in andesite. The property is well supplied with water and will be within five miles of the Southern Pacific.

Two within the next four months it takes six hours to reach the property from Copala. About gold has been expended upon the property.

George P. Beveridge, of the Capital Copper Co., is a third owner of the property, consisting of 120 shares. The company has accomplished 2000 feet of work and has opened 2000 ore-shoots, ranging from 500 feet in length. The ore is of three or four veins, varying in thickness from six feet, with an average of about \$20 in gold, and good values in silver. Some mining as high as \$300 in gold, silver and copper. The formation in the veins is in andesite. The property is well supplied with water and will be within five miles of the Southern Pacific.

THE PUBLIC SERVICE.

(Continued From Second Page.)

of Mr. and Mrs. M. J. Barnett, No. 151 Commonwealth avenue.

Mr. Barnett has acted for the past two years as assistant to Probate Court Clerk W. L. Warren in Judge Rives' department, and is well and pleasantly known to attorneys having business in that department. He and his bride, who are to be married by the judge of the court and the ceremony performed according to the code, in the presence of a small gathering of relatives and friends.

Many handsome gifts were received from Courtroom associates. Among them being a cut-glass vase from County Clerk Keyes and the staff of his office.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.
NO NUISANCE. Judge Convey yesterday gave judgment for the defendant in W. S. Crane's suit against J. F. Tomesack and others to recover \$10,000 damages for alleged detriment to property caused by the operation of J. F. Tomesack & Sons' pottery on East Forty-eighth street.

CHARGES ASSAULT. Mrs. Rosa Horn yesterday filed in the Superior Court a suit against A. Granas for \$5000 damages alleged due for personal injuries received June 8, when, she says, Granas beat and choked her.

ALLEGED INJURIES. Henry Weber yesterday filed suit against the Los Angeles and Redondo Railroad Company for \$4000 damages for personal injuries alleged to have been received by him May 30 last at Emerald and Catalina streets. He asserts that he was run down by a negligently driven trolley car.

NON SUIT. Judge Houser yesterday granted a non-suit to the County of Los Angeles and all other defendants except R. E. Sackett and Robert Sackett in the suit of John White against Los Angeles county and others to recover \$2000 damages alleged due for injuries to White's Artesia ranch by the straightening of the San Gabriel River channel.

DEMANDS CUSTODY. On the application of Mrs. Alice O. Clark, Judge James yesterday issued an order directed to Claude H. Clark, and returnable tomorrow morning, to show cause why he shall not surrender the custody of their 6-year-old daughter to the mother, Mrs. Clark, who has filed a suit for divorce on grounds of cruelty, and says Clark refuses to let her have the child.

WORTHLESS CHECK. Attorney Stephen Sullivan, charged with passing a worthless check on the Del Rey restaurant, was taken to the County Jail by Justice Selph yesterday in default of \$1500 bail for his appearance in the Superior Court. Sullivan offered no defense.

CRUELTY. C. F. Harris pleaded guilty and paid \$25 fine in Justice Selph's court yesterday on a charge of cruelty to animals in driving a sick horse.

INCORPORATION. Articles of incorporation were filed yesterday with the County Clerk by the Fagg-Johnson Company, capital stock \$10,000.

EMBEZZLEMENT. On the District Attorney's motion yesterday Justice Selph dismissed a charge of embezzling an automobile from the Auto Vehicle Company, preferred against M. A. Bennett.

MURDER. Jacob Valler yesterday in Judge Jamison's court pleaded not guilty to the murder of Joe Benanti July 15, and his trial was set for November 9.

ARSON. Justice Selph yesterday continued until Monday the examination of F. M. Drummond on a charge of arson preferred by his wife, Mrs. Carrie Drummond, who says her husband set fire to her Sawville house, July 15.

VACATION. Public Administrator Frank Bryson went yesterday for his vacation to Matilla, Hot Springs, where he will remain until September 1.

MARKED FOR KILLING.

But Japanese Officer Saved by Quick Work of Patrolman—Assailant Sent to Chain Gang.

Thomas White, employed by the police as secret service officer in the Japanese quarter, was attacked by a countryman, J. Kahara, early yesterday morning, and but for the quick work of Patrolman Fitzgerald, White would have been killed.

White is the only Japanese in Los Angeles who carries a star. Because of his vigorous work among his countrymen he has been marked for killing several times. Some months ago he was arrested by Kahara, who is a notorious gambler. Kahara's punishment was severe, and he waited a chance to get revenge.

Yesterday morning when White started for his room on East First street, Kahara followed. Fitzgerald took up the trail, also, and as Kahara drew his revolver and aimed at his countryman, Fitzgerald struck the muzzle of his own revolver against the Japanese's head.

Kahara was taken to the Police Court, convicted of carrying a concealed weapon, and sentenced to serve three months on the chain gang.

CONFESSES ABSTRACTION.

Postoffice Clerk Sikes Admits Opening Letters and Taking Money—Willing to Plead Guilty.

Berry W. Sikes, the postoffice clerk who is accused of opening letters containing money, made a confession to inspectors, yesterday afternoon, shortly after his preliminary examination before United States Commissioner Williams. He admitted to them that he has abstracted various small sums of money, abstracting them from letters passing through his hands. He claimed to be unable to give an idea of the aggregate amount of his peculations, and prior to the first of this year. He expressed a willingness to plead guilty when his case comes up before Judge Weiborn in the United States District Court. The penalty upon conviction is from one to five years.

Sikes has been in government employ since 1926, and as far as known, he has always attended faithfully to his duties. Owing to his willingness to plead guilty, it is believed that the government officers will recommend leniency in his case.

TWO ACCIDENTS, ONE SUICIDE.

Coroner Hartwell held three inquests yesterday. In the case of W. A. Wagster, a cook, who took carbolic acid Monday night, and then chewed tobacco until he dropped dead, the usual suicide verdict was returned. Funeral services will be held today at the Breese mortuary. In the case of R. E. Batson and George D. Mendenhall, who met death Monday night, accidental verdicts were returned. The jury exonerated O. B. Brott, the automobile driver whose machine was driven and killed Mendenhall.

Maybelle Wessel smashed the year's record to place yesterday by handing in a new five years' subscription, thereby netting 5000 points in one week. Annelise Berg is the new subscriber, and Maybelle feels very proud over having set a new high-water mark for the year.

Maybelle's entire score yesterday was 56,886, which enabled her to jump over the heads of Leah Aiken, Wava Tift, David Boardman, Charles Tolebas and Ida May Benjamin and land in thirty-ninth place.

Three contestants turned in scores upward of 4000. The best record was made by Hazel Franklin, who passed over 49,000 points to swell her total. Maybelle followed next in line while Mae Simmons turned in 4155.

Mae Simmons secured her points at Santa Monica, where she spent the day in hand work, the kind of work that always insures results. She secured one new annual and jumps to twenty-sixth place, leaving behind Winnifred Spencer, Clarence Wesner and Teresa Camp.

Hazel Franklin returned yesterday from Long Beach where she has been attending a house party given for the Delta Chi girls. Though she had been enjoying an outing, Hazel did not come home empty handed, and she had 5075 votes to show for her work. She has made up her mind that she has been away from the head of the list long enough and is now preparing to take her old stand.

Florence Jarmann, the Highland hustler, slipped a nice little package of 5000 points over the counter to the scholarship manager yesterday. Her score included one new annual and today she takes her place at No. 8, passing over the heads of Lizzie Shapiro and Ruth von Kirbach.

Fred Swartz, the Colton boy, hops from No. 41 to No. 37 this morning, having turned in 1854 points yesterday. His jump sends him over the heads of David Boardman, Charles Tolebas and Ida May Benjamin. Fred intends to keep on climbing and announces that from now on he expects to score up at least two numbers a day. His yesterday's score included one new annual.

Katherine Veronee hit a winning streak yesterday and stirred up 1865 points, including one new annual. Her activity places her in sixteenth place today, she having changed places with Ralph Warren.

Ellen Robinson maintains her place as No. 7. She turned in 4400 points yesterday. She is keeping steadily at the task which she has set for herself and is determined that no one shall crowd her from her position near the head of the line. She is too busy working to do much talking, but she hints that people may look for some astonishing things before the end of the contest.

Ellen is the kind of worker who usually lands what she goes after and her friends would not be surprised to see her at the top before the contest comes to a close.

Eva Matthews did almost as well as Ellen Robinson yesterday. She turned in 4200 points, including one new annual.

Leon Riesenweber is right on hand when it comes to counting up the

The Times Scholarship Contest 1908.

DAILY COUPON.

Score one point for contestant named below:

DIRECTIONS.

Points not credited to the student unless cash accompanies the order. To make sure students get proper credit for the points, remit direct to The Times or give the money to the student you wish to favor.

Mae Simmons, who turned in a record score in the Times scholarship contest yesterday.

points. Today he changes places with Hazel Pester, having passed up a batch of an even thousand points yesterday afternoon. Leon is working because he wants an education and does believe in waiting the golden hours.

Glenn Anderson followed in line with a thousand points to bolster his score. Glenn, the morning crowd's Zarah Morse from her position and is headed on his way toward the 20,000 class. He promises to place himself well up the line in a new company before the week is out.

Edith Wakefield is also doing things. She passed in 1000 points yesterday, including one new annual, and jumped from No. 50 up to No. 48, leaving Naomi Davis and Lupe Bustillos behind.

Two handsome prizes are offered to the contestants bringing in the most new subscriptions during the next two weeks. To the girl with the greatest number will be given a beautiful silk parasol, while to the successful boy will be awarded a fine sweater vest.

The prizes will come from the magnificent new Hamburg's store and will be of the quality for which that well-known business house stands.

THE PRIZES.

Besides the valuable scholarships for which the young people are working, the Times offers a splendid cash prize for those making the highest scores next to the top liner, who will receive the prize piano. The cash prizes, totaling \$1200, are arranged as follows:

No. 1	\$200
No. 2	140
No. 3	125
No. 4	110
No. 5	100
No. 6	90
No. 7	85
No. 8	75
No. 9	65
No. 10	55
No. 11	45
No. 12	35
No. 13	25
No. 14	25
No. 15	25

The first prize to be awarded to the winner of the contest in addition to a choice of scholarships is a splendid Fairbanks piano from the Southern California Music Company, valued at \$400. It is a beautiful instrument of superior construction, handled by an old and reliable company as a special feature, and is doubly guaranteed. It is known among musicians for its exquisite tonal qualities and responsiveness. The case may be of rich mahogany or dark oak.

THE SCHOLARSHIPS.

Below is a partial list of the scholarships offered to contestants. It will be increased from time to time, as a number of other institutions will be included.

University of Southern California.
College of Oratory, Beulah Wright, Dean.

LAKE BOATS COLLIDE.

Passenger Steamer Sank on Lake Ontario and One Woman Is Missing.

(ASSOCIATED PRESS REPORT.)

ROCHESTER N. Y., Aug. 12.—With the decks crowded with 450 passengers, the large steamer Kingston was rammed about 11 o'clock last night by the excursion steamer Titania, carrying fifty passengers. The latter piles in Charlotte Harbor, on Lake Ontario, the port of entry for Rochester. The Titania sank, and one passenger is missing.

The Kingston was making the Charlotte Harbor, on her way from the Thousand Islands to Toronto. Fifty feet from the Charlotte lightship the Kingston tried to cut across the bow of the Kingston to make a dock in advance of the large steamer, and rammed her on the port side. Capt. Thorp of the Titania leaped aboard the Kingston, followed by some of his passengers. In the meantime sailing yacht and boats from the life-saving station went to the rescue. Seventeen persons are believed to have been precipitated into the water. Sixteen were picked up.

The wife of Capt. Roscoe of the steamer Alger is missing, and is believed to have been drowned.

We Spend 96 Hours To Make It

Flaked foods can be made in one-fourth that time, but not a food like Mapl-Flake. Please read these facts—for the children's sake. You want to know the food that is best for them.

We spend six hours in steam-cooking our wheat.
Then we cure it for days, to partly digest it. To turn part of the starch into dextrine.
Then each separate berry is flaked so thin that the full heat of our ovens can reach every atom.
Then those thin flakes are toasted in a heat of 400 degrees.
If you ate raw wheat you could not digest it. The granules of starch would not be separated. The digestive juices could not get to them.
If wheat was half-cooked, half would be indigestible. Half would ferment and be wasted.

So wheat must be cooked as we cook it. The process of 96 hours is essential.
All flaked foods would be prepared in our way if the process was not so costly.
Then we cook our wheat in pure maple syrup. That is also expensive. But it makes the food enticing.
Children like maple better than anything else that is good for them. And we want them to like this food.
So do you. For Mapl-Flake is, beyond all comparison, the very best food they can eat.

Mapl-Flake

The Food That's All Food

Summer is not a good time for flaked foods. These are the days for whole wheat. Wheat produces the maximum of nourishment and the minimum of heat. It is the ideal food for hot weather.
It should form at least one meal a day.
But you want the wheat cooked as we cook it. You want the flavor we give it.
So try Mapl-Flake. Order a package today. Let the food itself tell you how good it is. Let the children say how they like it.

Ever in doubt just what to smoke? Do what the majority does—smoke—IMPERIALES CIGARETTES.

Over 125,000,000 Imperiales were smoked by the men of the West in 1907. The judgment of thousands of bright, energetic Americans is a good thing to go by.
And the popularity of Imperiales—we might almost say not unlike the popularity of so many of the nation's most celebrated men and women of literature, art and the stage, who first came from California—is rapidly assuming national proportions.
You can buy Imperiales everywhere. The mouthpiece Imperiales with their thin mais paper—crimped, not pasted—their clear, rich tobacco, have fenced off a field for themselves that no other cigarette has ever been able to trespass.
Smoke them all day long if you want to—no after effects.

EVENTS IN LOCAL

USUALLY interesting was the wedding last evening of Miss Amelia Lawton George, daughter of Mr. and Mrs. J. W. George of Burbank, V. V. to Franklin E. Nussally, a young business man of this city. The service was read at the home of Mr. and Mrs. John Milton. The bride was in law and sister of the bride, who is a charming young woman, wore a robe of white tulle and a crown of white flowers. The bridegroom wore a tuxedo. A shower of birthday gifts was given to the bride. The wedding party consisted of the bride, bridegroom, best man, maid of honor, bridesmaids, flower girls, ring bearer, and ushers. The reception was given at the home of the bride's parents. The wedding was a most successful and happy occasion.
